Classes offered are all private custom arrange classes by Broadway and industry professionals, specifically designed to inspire and educate students solely in our group. We do not join other programs or pre-established classes, aside from open dance classes at Broadway Dance Center or STEPS on Broadway.

Our master instructors, agents, and Broadway professionals are some of the most respected in their field, all who share one very important common goal, to motivate and inspire our students to grow from this experience and to follow their dreams.

Other similar programs cost three to five times more with only half the benefits that we include. What sets us apart is the customary and creative coordination to curtail each class and event to the needs of our students, who we know and are invested in. It's personalized!
